

wedi SUBLINER KITS:
No matter the situation, we've got you covered...literally!

At wedi, our job is to make yours more simple. wedi Subliner Kits are perfect examples. For quick installation over framework, the traditional wedi shower system offers the waterproof wedi Building panel.

Now—for jobs in which backer boards or wall boards are already installed, wedi offers a new kit solution that lets you install a waterproof shower or steam shower in few hours instead of days.

The kit for pre-existing wall installations includes:

- Pan
- Curb
- Sealant
- Subliner Dry
- Inside Corner Seals
- Outside Corner Seals
- Stainless Steel Strainer
- Drain

Sizes available: 3'x3', 3'x4', 3'x5', 3'x6' offset drain, 3'x 6' center drain, 4'x 4'

wedi Subliner Kits feature:

- Easy installation with pre-sloped waterproof base
- Subliner Dry can be installed over existing tile, backer board or drywall
- wedi Joint sealant to seal off all joints and transitions for watertight installation
- The curb can be cut down to fit existing framing
- No-caulk drain for simple plumbing attachment
- Square drain for easy tile installation
- 10 yr. Product Warranty

Dear wedi Customer,
 Though our lives are busier and more saturated with technology than ever before, some things never change. People still love the luxury and comfort of a long, hot shower and a peaceful retreat to call home.

When it all comes down, the simple things will always count the most.

Just as wedi makes great products that make those long, hot showers possible (and worry-free for years to come), we also strive to make life simpler for those who install them.

Our wedi Subliner Kit is a great example. We created this kit to make ordering supplies more simple and convenient, ensuring you quick response when you're striving to stay on schedule for your clients. That's one more 'simple thing' you can count on.

And we hope we can count on seeing you at Coverings! Our booth number's listed below.

Sincerely,

BASTIAN LOHMANN
 Director of Sales, wedi Corporation/
