

## NEW! wedi XXL PANELS: Bigger panels = fewer joints and faster installations!

The popular waterproof wedi Building Panel just became an even bigger deal. We've expanded our line of foam backer boards to include the XXL Panel. This new, extra large panel covers more area, accommodates faster installations and creates fewer joint lines.

XXL sizes available:

3' x 8' x 1/2"

3' x 8' x 2"

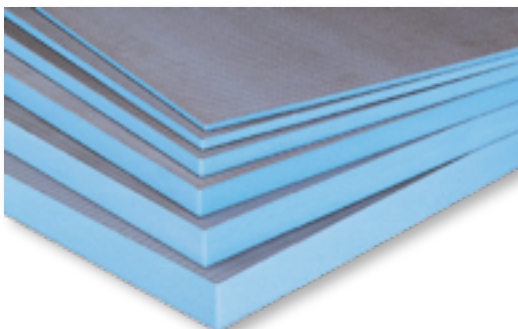

4' x 8' x 1/2"

4' x 8' x 2"

Of course, the XXL Panel also provides the same superior performance properties of all our Building Panel and Shower System products.

- 100% waterproof XPS closed cell foam core - No added paper or cellulose based layers, no extra coating membranes, no EPS foam
- Cementitious reinforced polymer resin coating for ultimate bond to all common thinset mortars (modified and unmodified)
- ISO, IPC and UPC approval for complete shower systems floor to wall
- Tested and rated under UL fire test safety requirements
- Non-hazardous, environmentally friendly use and manufacture
- Rated Heavy Duty Commercial Use per ASTM C C627, use on walls and floors as a crack isolating substrate
- Tested under ANSI 118.10-1999 and throughout waterproof

wedi Building Panel and Shower Systems are proven through testing, industry approvals and ratings, as well as in-field performance. Trust the best; rely on wedi!

Dear wedi Customer,  
There's a quote by Socrates that says "the way to gain a good reputation is to endeavor to be what you desire to appear."

At wedi, we work by this principle. We know that a great reputation must be earned through integrity and quality. That's why we develop our products with unwavering innovation—to be the best in the marketplace.

That's why we rely on third party testing and industry approval standards as the ultimate indicator of our Building Panel and Shower Inform product quality and performance. It's one thing for us to tell you about the excellence of our products. Yet when external, respected industry pros state this for us, it takes the message to a whole other level of importance.

For details on our U.S. testing results and industry ratings, be sure to visit our website or look for us in the Tile Council of North America's Handbook under "Cementitious Coated Foam Backer Boards."

We are currently the only foam based system that meets TCNA standards.

We hope to continue earning our reputation with you as the preferred manufacturer of premium Building Panel solutions.

Sincerely,

BASTIAN LOHMANN  
Director of Sales, wedi Corporation/
